

Safe Cargo Securement

*Presented by Quaker Valley Council of Governments and Char-West Council of Governments
Sponsored by Municipal Risk Management*

Load/cargo securement is a fairly simple safety concept but how many times have you witnessed a service truck, pickup, trailer (small or large), or semi with loose or improperly secured cargo? A piece of loose cargo can easily bounce off the vehicle and present a hazard to other motorists or pedestrians.

This event will cover the basic best practices and is intended for public works department personnel. In-person and designed specifically for municipal workers, don't miss this important training opportunity for your entire DPW.

WHEN

September 28, 2018
8:30 – 11:00 AM

WHERE

Avalon Borough
DPW / Fire Hall

629 New Brighton Rd, Avalon, PA 15202
